

## PRODUCT WARNING

Parents and youth need to be aware of the danger.

**ORBS could have serious consequences for this community**  
**This is not candy, this product is not safe, it's not cool.**

R.J. Reynolds is test marketing a new tobacco product in Central Indiana. This is the latest attempt to recruit new and young replacement smokers.

Camel Orbs are pill-shaped, contain more nicotine than a cigarette, and are designed to melt in your mouth [not in your hand]. The Tobacco Industry and thier products are not regulated by the FDA.
